Re: The Homes Of Pecan Grove & The Proposed Dallas West Villages Projects

This letter is written regarding the referenced matters, as well as a follow up relative to my letters dated February 23rd, & 24th 2005. Bill I left several messages for you yesterday morning and evening on both your new office telephone voice mail and cell voice mail. I have yet to receive a return call from you to discuss this new development regarding Odyssey's arbitrarily changing of the prime contractor (The Carleton Company) to The TNL Company (according to my impromptu telephone conversation with Dewey on yesterday).

All representations made (to me and others) until yesterday were The Carleton Company is the prime contractor. No notice was given to The BSEATCDC, Inc. (The project manager) regarding any proposed solicitation or RFP or new bids for consideration for the prime contractor as required in accordance to our contract.

I have discussed this matter with all interested parties (public officials, preferred list of subcontractors & others). As you may already know, this very untimely abrupt and ill advised last minute maneuver is not being received well, especially, based on well documented previous contractual and community/public relation matters (trust/public commitments made by Odyssey). As stated in my letter of February 24, 2005, The BSEATCDC, Inc. nor any of its officers, agents or affiliates will be responsible for matters out of our control, particularly when we continue to be excluded from the consultation, consideration and approval process as our contract strictly and specifically requires.

As shared with you via my voice messages, I will be leaving the city today for the rest of the week to take care of some matters in the deeper portions of East Texas. My cell phone may or may not connect properly from time to time. However, please feel free to leave me a voice message (214-207-0850), as I will be checking them periodically. I will follow up with you as the opportunity allows.

Re: The Homes Of Pecan Grove & The Dallas West Villages Projects

This letter is written as a follow up to my meeting with Bill on Monday, February 21, 2005 regarding the following matters that need to be resolved no later than March 3, 2005.

- 1) Fully executed amendments as referenced above and outlined and delivered by The BSEATCDC, Inc. to you attention on February 9th and 16th 2005.
- 2) Fully executed contracts (negotiated bid awards) between The Carleton Company and the list of preferred subcontractors. Also, a very direct and "straight forward" letter of commitment/utilization to each of the subcontractors regarding utilizing their firms for the Dallas West Village Project. Please forward (via fax) a draft of the letter to my attention prior to mailing it out to the list of preferred subcontractors.

In closing, it is very critical that we meet our deadline of March 3, 2005. The BSEATCDC, Inc. will not be held responsible for the final outcome (City Council approval/denial) as a result of delays due to the lack of Odyssey's noncompliance. I will be in contact with you guys as much as possible on a daily basis to check the status of the aforementioned matters.

Thanks for your prompt attention and reply. Please feel free to contact me directly should you need any additional information.
